

# **CATHEDRAL VIEW BED AND BREAKFAST**

## **ACCESS STATEMENT**

Cathedral View is an attractive Georgian Town House.

Its historic architectural design may limit access to those with mobility impairments or specific needs.

We have improved and updated the accommodation as much as possible, within the limitations placed on a Grade II listed building and the difficulties encountered when dealing with a period property.

The principal access problems at Cathedral View are a result of the guest bedrooms being located on the first floor or above. The bedrooms can only be reached using a traditional staircase.

The house is situated on the city street and parking is across the road from Cathedral View and not directly outside.

There is a strict No Smoking policy.

Unfortunately we are not able to accommodate pets.

For further information please ask for a detailed attachment or request that we post a written guide.
